

Iowa Strategic Goals Program Workshop

“Renewable Energy, Iowa’s Antidegradation Policy & the new NPDES E-Reporting Rule”

Regulations. By law you are required to comply. However, compliance requirements can often seem overwhelming and confusing, and rule changes can catch you completely off guard and leave your head spinning.

Wouldn't it be nice if regulators would provide hints and tips to help you better understand what is required of your business? Would you like the opportunity to meet with regulators and

industry experts in a small setting where questions are welcome? This workshop provides just that opportunity.

Join us at the Iowa Strategic Goals Program 1-day workshop on April 28, 2015. In the morning, attendees will hear from the Iowa Energy Center regarding solar and wind renewable energy options with return on investment information. In the afternoon, we'll transition to water with information on Iowa's Anti-Degradation Policy affecting direct dischargers to Iowa's waterways, and information will be presented on EPA's new NPDES Reporting Rule. Participants will also hear about federal funding opportunities to assist businesses in implementing various environmental improvements within their facilities.

All sessions provide plenty of time for open discussion / Q&A, so take advantage of this opportunity to learn, network and share ideas!

This workshop is the 17th in a series offered by the Iowa Strategic Goals Program. Open to all Iowa manufacturers, the materials presented will apply to a broad range of industrial sectors. The following comments have been received from previous workshops:

- “Good information presented – relevant to all types of industries.”
 - “Very good class, good information, timely topics.”
 - “Speakers were very well educated in topics discussed.”
 - “I think this is a great forum to allow businesses to get good compliance information with the regulatory agencies.”
-

Sponsored by the Iowa Strategic Goals Program in partnership with U.S. Environmental Protection Agency's Region 7, the Iowa Department of Natural Resources and the Iowa Waste Reduction Center.
